

“If you’re a skilled Software Developer looking to join a growing and innovative technology team then keep reading!”

Who is Insightworks?

Insightworks Training Technologies provides industry-leading training and development applications designed to support the training and operational needs of organizations.

The Team

Entering our tenth year, we combine the skills of Developers, Graphic Artists, and Human Resource professionals to design custom 2D and interactive 3D training solutions for clients in the healthcare and manufacturing sectors. We are a small but mighty team who love what we do, work very collaboratively, and feel fortunate to live in beautiful Sault Ste. Marie.

About the Position

We’re looking for a Computer Programmer/Developer to join our team. This position is a full-time permanent opportunity. The successful candidate will be skilled in software development and web-based programming. He or she should have strong communication skills and be independently motivated. Immediate start date with a competitive salary is available.

Accountabilities

- Provide analytical and design expertise.
- Translate functional requirements into technical specifications clearly and accurately.
- Design, develop, implement and maintain web applications.
- Perform testing of new systems and features.
- Troubleshoot system bugs and issues.
- Develop and utilize documentation.
- Acts as a technical subject matter expert on programming, system design and development-related standards, policies, procedures, and activities.
- Work effectively in a team setting.

Preferred Experience/Qualifications

- Bachelor’s Degree or Diploma in a Computer Science related field.
- 3-5 years of experience programming with C#, WebAPIs, Javascript, and Javascript frameworks (ReactJs, Vue, Angular).
- Full stack development skills.
- Confident working with relational databases and reporting tools.
- Solid understanding of IT systems and server administration an asset.
- Experience working with Project Management software (ie. DevOps, GIT).
- Excellent written and oral communication.

Why We're Awesome to Work With!

- We're a talented, fun, and very humble team.
- Creative and ambitious work environment - share your ideas big or small in a collaborative workspace.
- We offer a competitive salary and challenging work.
- Work in a remote or office environment.
- There are delicious donuts for birthday celebrations.
